

1           23. A recording capable of being read by a computer, storing a program for  
2 retrieving idle time of a schedule, comprising:  
3           accepting a first conference-holding condition of said schedule;  
4           dividing a subject of said schedule into a plurality of groups;  
5           comparing one group in said plurality of groups obtained by division with said  
6 first conference-holding condition to make a coincident result be a second conference-  
7 holding condition;  
8           comparing one of said plurality of groups, which is not yet compared with any  
9 previous conference-holding conditions, with said second conference-holding  
10 condition; and  
11           outputting a retrieval result obtained by comparison.--

---

**REMARKS**

Claims 21-23 have been added by applications to broaden the coverage of their invention. Favorable consideration of these claims and allowance of this application is respectfully requested.

A check in the amount of \$78.00 to cover the cost of adding one independent claim in excess of three.

To the extent necessary, Applicants petition for an extension of time under 37 CFR §1.136. Please charge any shortage in the fees due in connection with the filing

of this paper, including extension of time fees, to Deposit Account No. 01-2135 (Case No.500.35669CX1) and please credit any excess fees to such deposit account.

Respectfully submitted,

ANTONELLI, TERRY, STOUT & KRAUS, LLP
